**WE ARE HERE FOR YOU DAY AND NIGHT!**

### Did you know?

*Dogwood offers 24-hour emergency care for patients currently enrolled in our wellness program!*

### Does my pet qualify?

*If your pet currently receives yearly preventative care including vaccines and wellness exams, then YES!*

### What type of emergency care is offered?

*Our doctors have the ability to triage most emergencies, including gastrointestinal issues, lacerations, fractures, and accidents such as hit by car and dog fights. However, we are not a 24-hour care facility, and there are limited occasions where our doctors may feel that your pet would be best served at a 24-hour emergency clinic. In these instances, your pet may be referred to Southern Crescent Animal Emergency in Fayetteville, or Union City Emergency in Union City.*

### Questions?

*Our doctors, technicians, or client service representatives are happy to answer any questions you may have concerning our emergency care service!!*
